

Deficiency Free Survey

PRESERVING PEACE-OF-MIND.

American Senior Communities would like to congratulate the outstanding team at East Lake Nursing and Rehabilitation Center for their excellence! East Lake Nursing and Rehabilitation Center was found to have no deficiencies during a recent inspection. A deficiency-free score is the best a skilled nursing center is eligible to receive from the Indiana State Department of Health (ISDH), a distinction achieved by a low percentage of nursing homes in the state.

East Lake Nursing & Rehabilitation Center has received better than state average scores on previous inspections, but this 100% deficiency-free score is reflective of their focus on constant improvement as well as their dedication to serving each resident with quality care and excellence.

East Lake Nursing & Rehabilitation Center offers Moving Forward Rehabilitation, a program designed for those striving to restore abilities lost due to stroke, cardiovascular difficulties, orthopedic surgery and other debilitating conditions. Programs vary in frequency and intensity and include physical, occupational and speech/language therapies. East Lake Nursing & Rehabilitation Center also will open an Auguste's Cottage Memory Care Center designed to serve those with Alzheimer's Disease or related dementias later this year.
